Vol. XX

WEDNESDAY, JULY 18th, 1923.

No. 28

Saving and Investing

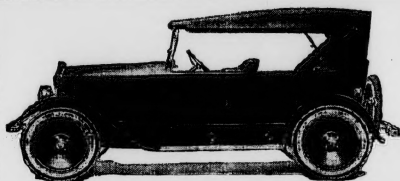

"Investing" your money is a serious matter—not to be done in a hurry. Think twice and ask advice before investing. Be guided by experience—preferably your banker's.

Successful investors always keep in close touch with their bank.

"Double your Savings; It CAN be Done."

TOWN OF DIDSBURY POUND NOTICE

The Council has established Lots 27 and 28, Block 18, Plan Didsbury 110.6 as a Pound under the Domestic Animals Act (Municipalities by Law No. 255, and appointed Wolf F. Sick as Poundkeeper.

Notices of Impoundment or other, when in connection with animals impounded shall be posted at the Fire Hall and Post Office, Didsbury, said by Law No. 255 is effective August 1st, 1923.

W. A. AUSTIN,

Secretary-Treasurer.

NOTICE UNDER TAX SALE RELIEF ACT

Municipal District of Westerdale No. 311.

Take notice that certain lands have been sold by the Municipal District of Westerdale No. 311, on December 5th, 1921, under the Tax Recovery Act and the time at which the period of redemption provided by law will expire on the 31st day of October, 1923, a list of such lands can be seen in the Alberta Gazette, dated June 20th, 1923.

A. McNAUGHTON,

Secretary-Treasurer.

PASTOR GIVEN FAREWELL FARIY

A pleasant gathering of Harmonists and Zella folks was held the evening of July 4th at the home of Mr. and Mrs. Fred Hyde, to honor Mr. Harris, who has been their pastor for two years, and is now leaving to be student pastor in a church in Edmonton, while he is attending the University of Alberta. Mr. Harris' ministry at Zella has been a steady growth in the history of the little church, due largely to his geniality and faithful spiritual personality. A prayer service, led by Mr. Harris, was followed by a social hour. A purse of \$25.00 was presented to Mr. Harris—toward the increase of his library—a gift of affection and appreciation from the Zella church people.

Mr. Allan Lewis, of Toronto, will succeed Mr. Harris in the field, and begin his ministry the 15th of July. He will be assisted in special services for a week by Mr. York, of Toronto, who is well known in this district, having held special services here for two previous summers.

Among those present Wednesday evening were: Mr. and Mrs. Couett, Mrs. Andrews, Miss Andrews, Ed. Ward Andrews, Mr. and Mrs. Alex. Ross, Mr. and Mrs. Hyde, Miss Hyde, Mr. and Mrs. Hugh Ross, Mrs. Grant, Mr. and Mrs. Esler, Mr. and Mrs. Slang, Miss Ross, Mr. and Mrs. W. Davies, Mr. and Mrs. Weatherby, Mr. and Mrs. McArthur, Mr. Worthington and others.

CARSTAIRS STAMPEDE

Carstairs Stampede will be held August 1st, 1923, good Cash Prizes will be paid for Best Bucking Horse, rider, and a large prize is being given for the Best Bucking Horse, and horse owners are being encouraged to bring in the bucking horses.

Gay Wendick will be the Manager of the Stampede, as we have affiliated with the Canadian Cowboy Association, and their regulations will govern.

POWERFUL, TENSE STORY AT RIALTO

A ship captain and trader as hard-boiled as they made.

A French girl, married suddenly to a crook and carried away by an indignant father to the South Seas. A scoundrel too cunning to steal from the man who has saved him from death, and then nerve enough to come back and ask that man for a job!

These three chief characters, many more characters typical of the South Seas, all the romance and wonder of the tropics, and the fine element of a story that comes from master pens will be seen in "The Altar Stairs," a Universal screen attraction which will show at the Opera House on July 18th and 23th.

"The Altar Stairs" was a novel by G. B. Lancaster, and the screen continuity of the story was prepared by George Randolph Chester of Wallingford fame.

"DRIVE ON, JAMES!"

The taxi suddenly came to a halt in the middle of the street. "What's the matter?" called the man from the back seat. "I thought the young lady said stop," answered the chauffeur. "Well, she wasn't talking to you!"—Ex.

Didsbury Baseball team after losing two games to Olds came back strong here last Friday night and after a hard fought game beat them 9-1. At first Olds, who had brought along a bunch of rosters, took the lead. Then Didsbury started and the Olds rosters were heard no more. Wednesday evening Didsbury played Infaill and won 4-3. This leaves only two more games to be played, both with Infaill, and chances are good of coming out at the top of this section of the league.

AROUND THE TOWN

Mrs. B. Asplund of Taber is visiting in town with Mrs. Vern Shantz.

Mr. George Long was a visitor in town this week.

Miss Irene Redaway was a visitor in Calgary on Wednesday.

Mr. and Mrs. Wm. Davies left for London Ontario on Tuesday.

Miss Babe Weber is visiting at her home here.

Miss Jean Russell is visiting with relatives in Cochrane.

Mr. and Mrs. J. Tacey spent a week visiting in Calgary.

Miss Emily Moyle is up from Calgary for a couple of weeks.

Mrs. T. Thompson and family left for Sylvan Lake on a camping trip Wednesday.

Mrs. Chas. Young returned from Calgary on Monday, where she was visiting friends.

Miss Pearl Mortimer and her sister Mrs. Ethel Mickle are visiting their mother in town.

Mr. J. Eastman and family are spending a two weeks vacation at Lacombe.

Miss Marjorie Good is visiting her grandparents, Mr. and Mrs. H. E. Weber.

Mr. and Mrs. Gellbraith, of Bank, Alberta, are visiting with their son, a law and daughter. Mr. and Mrs. A. E. Ryan.

The majority of Didsbury people who attended the Calgary Stampede last week report that a great time was had.

Mr. Archibald of Coronation has taken the place of Mr. R. Moon as ledger keeper in the Union Bank here.

The Children's Day program which was to have been held on Sunday, July 1st, was postponed to Sunday July 29th, at 10:30 a. m., and at 2:30 p. m. Orchestra in attendance.

The mill rate on the town taxes is down to 38 mills this year. This is a reduction of 12 mills from last year's rate and is most certainly a step in the direction that town people will be glad to see.

Mr. Wm. Storey and family left for Bow Island on Monday morning. Mr. Storey having been transferred in charge of the No. 104th elevator there. Mr. McKean has taken Mr. Storey's place in Didsbury.

Mr. Peter Weber, of the local telephone staff has been transferred to Red Deer. Pete will finish the season with our ball team however and will be missed in this capacity later on as he has turned out to be a good ball player.

Mr. and Mrs. Ed. Crawford left by car on Wednesday for Calgary before continuing their journey to the Coast. Bob and Mrs. Crawford, during their life in Didsbury have made many friends here and have also been energetic workers in several lodges and societies, amongst all of whom they will be greatly missed.

Mr. J. V. Bercht was very successful in his entries of Skelton ponies at the Calgary Stampede, taking four first prizes. First for Grey Belle in harness. First for Lady Belle in saddle. First for Didsbury Lad, and first for Brae Don Welch, stallion. Brae Don Welch is owned by Mr. W. E. Rieder. Leonard Bercht took second prize for his rider. This was quite a clean up in these classes and speaks well for the quality of Mr. Bercht's horses and the care that he gives them.

Canada's International Responsibility

Has Canada any responsibility internationally? Should a nation of only eight million people, with but a continent to develop and with many and large domestic problems of its own to solve, concern itself with conditions and affairs in other countries, on other continents, and throughout the world? Is it the duty of Canada to assist in bringing about a solution of world problems and in the development of a larger spirit of brotherhood among all peoples and nations?

An overwhelming majority of Canadian people have answered these questions in the affirmative on many occasions and in various ways. From earliest days the Canadian churches have recognized such responsibility in their foreign mission work, their activities including the establishment of colleges, schools, hospitals, and medical services, as well as the teaching of the ideals and precepts of the Christ. Our Government said "Yes" when they sent the Canadian contingent to fight for liberty and justice in South Africa, and later when they authorized Canada's young manhood in its hundreds of thousands to participate in the Great War. Canada's Parliament, as representative of all Canadians, emphatically agreed when it set the seal of approval to the affixing of Canadian signatures to the covenant of the League of Nations.

Canadian opinion is well defined on this question, but, as was inevitable in view of our pioneer and largely undeveloped state, with many domestic difficulties and problems to be solved, our distance from the Old World, and our geographical, commercial and social connections with the United States which has for so long accepted the Monroe doctrine and its policy of isolation from participation in world affairs, there were some Canadians who are either opposed to Canada assuming any international responsibilities, or who regard such matters as a place of very minor importance.

The danger in a country like Canada is not that too much attention will be given to international questions, and our responsibility in regard thereto, rather Canada's danger lies in the over-emphasis of sectional interests, at home, whether those interests arise from considerations of geography, religion, race or occupation. In their own interests Canadians must be Canadian before anything else—not Easterners or Westerners, farmers or manufacturers, French-speaking or English-speaking, Protestant or Roman Catholic, but Canadians. Only so can Canada realize its high destiny and play her part worthily in the larger affairs of the world.

Whatever old statutes may say, Canada has passed forever from the old position as a colony dependent of England. In the language of the Constitution of the Irish Free State, the dominions of the Empire are reconstituted as "separate members of the Community of Nations forming the British Commonwealth." It is now not only our right but our duty to think not merely as provinces, or as a Dominion, or even as an Empire, but internationally as a nation in the world brotherhood of nations.

Even assuming it to be desirable, it is not possible to disregard our international status and the responsibilities which attach to that position. Even if Canada had not sent a soldier to Europe in the Great War, this country would have suffered enormous loss, and had Germany been victorious Canada, in common with the rest of the world, would have suffered. Nations cannot escape problems today from the standpoint of a narrow, selfish nationalism which thinks it is promoting its own interests best when it is seeking some advantage at the expense of other nations. History has proven that to be an entirely false conception. We cannot ignore international problems, and in our interest we must approach them from the larger point of view that a nation best serves its interests when it renders the greatest service to humanity. We must adopt and follow the Christian rather than the pagan ideal.

If any part of Canada, in any section in the world for that matter, could ignore international responsibilities it would be the broad prairies of the West. But even the remote, almost isolated Canadian wheat on board ship at Hamilton, valued at \$1.50 in Canadian currency, would cost the German 1.50 at the present rate of exchange (100 marks, or the equivalent of about \$2.50 Canadian currency, at the present rate of exchange). And that is true in the case of Germany is true in varying degrees of other European countries which would be purchasers of our wheat. The result is that millions of people in Europe who will not when wheat cannot afford to buy it. Why? Because of the international situation. Canada is the loser and Europe is the sufferer.

It is in Canada's purely selfish and economic interests to take an even bigger interest and responsibility in connection with international affairs. But greater than this is the consideration we owe to the building up of a broader, better humanity and such a world brotherhood, and in the development of a new mental outlook and understanding between nations, making better than the League of Nations has yet been devised. It is not perfect, but it is our duty to use our full power and resources with all nations, including the main, Russia and the United States, are incorporated in its membership. The League is gaining in prestige, and success as nothing succeeds the success, and as nothing but success can induce the United States and other countries to come into it. Canada's position is to do all in its power to support the League and assist in its development it is our neighbors in the world.

Horrid Insects

A girl who had just returned from Egypt was telling her mother about the pyramids and other wonders. Some of the stones, she said, were covered with hideous insects. "I have seen them," said her mother, anxiously, "you were careful not to get any of them on you?"—London Tit Bits.

Leading Up to It

North—Are you practicing law now?
West—I hope to soon, but just now, I'm practicing economy.

W. N. U. 1474

Child Labor In China

Women and Children Are Cheap in the Orient

Miss Takling Shin, a welfare worker at Hong Kong, who is now in Europe studying conditions, says that women and children are especially cheap in China.

In that country there are thousands of people, with only 1 per cent, literate, and they die off by thousands, she says. When a child is a week or two old she is taken by her mother to the factory, laid in a corner, and fed at intervals. If she survives, in a year or two she toddles about among the machines. At 4 or 5 she learns the rudiments of the work, and at 6 or 8 is an adept, taking her place in the ranks of regular workers. They work from twelve to sixteen and a half hours a day.

Eastern Salmon For B.C.

First Attempt to Introduce Miramichi Species to Western Waters

In order to introduce the famous Miramichi salmon into British Columbia, millions of salmon eggs from Newcastle, New Brunswick, have been sent to Terrace, British Columbia, where they will be propagated at the Ketchikan hatchery. This will be the first attempt that has been made for propagation in this province this year of eastern species, which, unlike the Pacific salmon, does not die directly after spawning, but returns to salt water.

2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was unable to do my work," writes E. S. Shaw, from Georgetown, Alaska. "I tried all sorts of remedies, but I decided to try Nerviline. I had heard of it, and I was sure it would cure me. It did. In three days my backache was gone, and I was able to get on with my work. I have not had a backache since."—Chicago Tribune.

You are bright, but you can't tell how many times a cat has without thinking.

THANKFUL MOTHERS

Once a mother has used Baby's Own Tablets for her little one she would use nothing else. The Tablets give such results that the mother has nothing but words of praise and thankfulness for them. Among the thousands of mothers throughout Canada who praise the Tablets is Mrs. David A. Anderson, New Glasgow, N.S., who writes: "I have used Baby's Own Tablets on my children and from my experience I would not be without them. I would urge every other mother to keep a box of the Tablets in the house. The Tablets are a mild but thorough laxative which results in the bowels and system becoming free from constipation and indigestion, break up colds and simple fevers and induce refreshing sleep. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

SUMMER EXCURSION FARES EAST

ROUND TRIP FARES TO POINTS IN EASTERN CANADA VIA C.P.R.

The Canadian Pacific Railway have now on sale, round trip summer excursion fares to points in Eastern Canada. These fares bear a limit until October 31, 1925, with stopovers enroute, and are applicable all rail or via the Canadian Pacific Great Lakes Steamers from Fort William, Port Arthur to Port McNicoll or Owen Sound on payment of additional charge to cover meals and berth while on the boat.

The trip East via the lakes is delightful to say the least, offering all the comforts of ocean travel with none of its discomforts, the fresh lake breezes will soothe your appetite in that of your hotland days, and permit full justice being done to the appetizing meals.

To those preferring travel by train, the Canadian Pacific offer three train rates, including the Fast All Sleeping Car Train the Trans-Canada Limited.

Ask the Canadian Pacific Agent for Illustrated Great Lakes and Trans-Canada literature, and plan your trip now.

Some authors' originality is due to their skill in misquoting others.

Natural Resources Bulletin

Extent of Forest Resources of Saskatchewan Not Generally Known

The Natural Resources Intelligence Service of the Department of the Interior at Ottawa, says:

While Saskatchewan is more generally known as one of the prairie provinces, owing to its very large grain-growing areas, very few, even of the province's own population, realize the vastness of the timbered areas in the northern half of the province.

A survey of the forest resources of Saskatchewan shows that the province has available 7,950,000,000 board feet of saw material, divided approximately as follows: 2,000,000,000 feet of spruce; 1,000,000,000 feet of poplar; 300,000,000 feet of jackpine; 100,000,000 feet of balsam; and 20,000,000 feet of larch.

The use of Miller's Worm Powders insures healthy children so far as the ailments attributable to worms are concerned. A high mortality among children is traceable to worms. These sap the strength of infants so that they are unable to maintain the battle for life and succumb to weakness. This preparation gives promise of health and keeps it.

Complimentary Well-meaning business (for your vocalists). You must never tell us again that you can't sing, Mr. Brown. We know now—Yorkshire Post.

His Good Deed
"It is the duty of everyone to make at least one person happy during this week," said the Sunday school teacher.
"Have you done so, Willie?"
"Yes'm," replied the boy.
"That's right. What did you do?"
"I went to see my aunt and she was happy when I left."—Chicago Tribune.

When the average man has reached the age of 50 years he has eaten 25 cattle and about an acre of potatoes.

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoacetic acid of salicylic acid. While it is well known that Aspirin means Bayer, to make the point against imitation, the Bayer Aspirin boxes and tablets will be stamped with their general trade mark, the "Bayer Cross".

Destruction Spread In Thickly Populated Area By Eruption Of Mt. Etna

Catania.—The smoldering, hot and thickly populated slopes of Mount Etna and the surrounding country are the correspondent of the Associated Press saw them in past, have now become, with ghastly suddenness, the "land of dreadful night."

Through the thick darkness, which can almost be felt, glows the crimson of the lava fire flowing from the broken lips of the crater, extending for miles and gradually growing darker as the molten mass cools and hardens. Small cracks and crevices appear on the surface through which can be seen bubbling up the boiling lava.

The fields of Piano, Ercolano, Biana and Caltabellotta, once green and beautiful, now covered with heavy deposits of dust and cinders, tremble and heave beneath the feet, with the roaring sounds accompanying the eruption mingle with the rumblings of lavae through dark caverns carrying away the refugees and their possessions from the doomed villages.

Approaching the volcano masses of fiery material thrown up from the smaller craters can be seen. They roll slowly down the mountain side, and above them are dense clouds of smoke and vapor. One by one the splendid homes and villas are overborne and destroyed. Vineyards and gardens have been consumed in the lavae heat long before the lava reached them, throwing off masses of sparks, and finally smoulder down into grim darkness.

At Castiglione the inhabitants linger in their homes, collecting and packing their possessions, though doubtless most of these must be abandoned along the road.

The visit of King Victor Emmanuel was the outstanding event of the day. The King, wherever he appeared, was the object of intense enthusiasm, the women especially crowding around the royal motor, holding up their children and telling them to look on the royal deliverer, crying: "Long live the King; he will see that we have all we need."

Safeguarding Food Supplies In War

British House of Lords Discusses Submarine Development

London.—The question of safeguarding the nation's food supplies in war-time, especially from Empire sources, in view of the development of the submarine, was raised in the House of Lords.

The Earl of Clarendon, speaking for the Government, was reluctant to give publicity to the Government's deliberations inasmuch as the subject was closely connected with Imperial defence. The Duke of Devonshire, Secretary for the Colonies, subsequently stated that the matter was receiving close attention and would be considered by the Imperial Conference.

To Protect Tourists in China

London.—Great Britain, in collaboration with the United States and other powers, is considering what measures can be taken in cooperation with the Chinese Government for the safeguarding of foreign passengers while travelling on Chinese railroads. One suggestion considered is the formation of a Chinese renderments under the command of allied and United States officers.

Passengers From the Orient

Russia.—Carrying passengers from the Orient for Great Britain and other European countries, a special boat train operating as second section of C.P.R. No. 2 passed through here June 13th. In addition to the other passengers the train carried a coach load of Chinese in bond bound for the West Indies. Passengers on the train crossed the Pacific on the Empress of Canada.

House Approves the Sales Tax Amendment

Aim Is To Do Away With Present Varying Scale

Ottawa.—The House of Commons adopted the resolution on the sales tax in the committee of ways and means practically without discussion. The aim of the amendment is to substitute a general sales tax of six per cent. instead of a varying scale, as at present in effect, explained Hon. W. S. Fielding, Minister of Finance. He hoped that the new system would increase revenue and simplify collections.

A bill to amend the special war revenue act, to give effect to the resolution, was separately introduced and given first reading.

Insulin From Dogfish

Supply More Plentiful Than From Cattle, Says Alberta Professor

Seattle.—Insulin, the new agent for the treatment for diabetes, has been isolated in poisoning quantities from dogfish taken in Puget Sound, Dr. J. B. Collip, professor of biochemistry, in the University of Alberta, told an audience here. Dr. Collip, in his laboratory at Edmonton, obtained more insulin from the pancreatic glands of seven tons of dogfish than he could have obtained from an equal quantity of pancreas from cattle.

Dr. Collip lectured in connection with the annual meeting of the Pacific Northwest Medical Association in progress here.

Frenchman May Try Pole Flight

Paris.—A French aviator, who intends to make an attempt to reach the North Pole by air now that Raoul Amundsen has abandoned his scheme, the newspapers announce. The prospective adventurer's name is withheld.

Trotzky Hurls Threat At Great Britain

Bolshevik Leader Directs Hate Toward British and Italians

Moscow.—An attack on Great Britain, hints of a Russo-French rapprochement and a plea for "more metal in our national character," marked an address by Leon Trotzky, Soviet War Minister, before the all-Russian congress of metal workers. "If an ultimatum is presented to us," he explained, referring to the recent British notes, "let us create a detachment of airplanes. If a comp d'etat occurs in Bulgaria, let us build an other detachment of airplanes, and if there is a comp d'etat in Persia build more planes.

M. Trotzky said Great Britain and Italy had, according to information at hand, assisted in the comp d'etat in Bulgaria, and the British had aided in the nationalist overthrow in Persia. Declaring that Russia's losses in the world war were overwhelming, greater than Italy's, Trotzky added: "It was for this purpose, perhaps, that Lord Curzon felt strong enough to deliver us his ten-day ultimatum."

High Grade Stock Excites Comment

Convention Delegates Impressed With Showing From Saskatchewan University

Saskatoon.—Advanced lectures on soils and forage crops and a livestock show were features of the programme of the first day of the convention of the Canadian Society of Technical Agriculturists, held at the University of Saskatchewan.

Dr. F. J. Alway, of the University of Minnesota, lectured on "The Diagnosis of the Fertility of Soils," and A. J. Peters, of the United States Department of Agriculture, Washington, spoke on "Forage Crop Problems in the Northern States."

The show of the university livestock excited comment from the delegates. President L. S. Kitchin, of the University of British Columbia, said: "No college in Canada has a string of horses to compare with those shown."

The large numbers and the high average quality of the other kinds of stock also impressed the visitors.

Russia Holds U.S. Ships

Schooners Reported to be Carrying Liquors and Furs for Sale

Rome, Alaska.—Liquor aboard the trafficking was a factor in the detention of four United States trading schooners at East Cape, Siberia, by the Russian Soviet Government, according to information received here. Besides a license for trading, it is reported that the Soviet has imposed an extremely high tax on ships exported from Siberia. J. Castelli, of Nome, owner of the Beulah, one of the seized schooners, is reported to have a thousand ship skins that he has been trying to ship out of that country by that vessel.

The entrance of liquor into Siberia is absolutely opposed by the Soviet authorities.

Canada's Envoys to Geneva

Ottawa.—Sir Louis Gouin, Minister of Justice, and probably Hon. G. E. G. Gouin, will be the Canadian ministers who will represent Canada this year at the Assembly of the League of Nations in Geneva. Afterwards they will go to the Economic and financial conferences in London.

To Attend Convention

Ottawa.—Robert Maxwell, late president of the Dominion Command, Great War Veterans Association, is leaving for England early in July to attend the British Empire Service League in London, July 12.

Wheat Thirty Inches High

Letbridge, Ont. The Kelso farm, east of Letbridge, is a field of 125 acres of Marquis wheat sown April 11 and 12, which stands 30 inches high and is just beginning to head out.

Preparing Decree To Take Over Industries In The Ruhr Valley

Must Close On Sundays

Manitoba Theatres and Stores Cannot Open on Lord's Day

Winnipeg.—Despite the decision of Sir Hugh John Macdonald that the Lord's Day Act is of no effect in Manitoba, theatres and places of business will not be permitted to open Sundays. In the opinion of Hon. R. W. Craig, attorney-general.

Following a conference between Mr. Craig, Attorney-General, and John A. Macdonald, deputy attorney-general, Mr. Craig issued a statement that places of amusement which attempted to remain open Sundays would be liable to have their licenses cancelled and their employees would be open to prosecution under an English law of Charles II. Stores opening Sundays also would be liable under the old law.

Mr. Craig urged complete revision of the federal law after a decision is handed down by the Privy Council in the appeal from the ruling of the Manitoba courts that Sunday trading to the houses are legal in Manitoba.

Government Probes Canteen Activities

Witness Asserts Profit Enhanced By Sales to Arabs

London.—Some remarkable evidence concerning the army and navy canteen board's dealings with the Arabs in Mesopotamia was given at the government enquiry into the workings of the canteens. It was asserted by one of the witnesses that whereas the managers of the canteens had been instructed to sell only to British and Indian troops, they had also sold to Arabs at one hundred per cent extra, the margin finding its way into the managers' pockets.

Another assertion made was that fourteen tons of butter had been sent to Constantinople when there was no demand for it, the result being that most of the remainder was spoiled. An aviator of the canteen board, it was also alleged, had purchased goods for £2,000 for which other firms had to pay £14,000.

Australia, Deporting Radicals

London.—The London Morning Post's Melbourne correspondent cables that the Australian Federal Government has decided to carry out the recommendation of the special league of enquiry and deport the Irish Republican envoys, Father O'Flannigan and O'Kelly, who went to Australia several weeks ago to foster Irish Republican sentiment there.

President.—A decree providing for confiscation of all Ruhr Valley industries, the products of which are applicable to the reparations accounts, and forced operation of the plants by the Germans, is being prepared by General De Goutte, commander of the occupation forces. It is announced. Arrangements for promulgation of the decree are going forward as rapidly as possible, but owing to the wide scope of its measures and the extensive character of the industries affected, it was said the French and Belgian authorities would require several days more in which to work out the details before putting the plan in operation.

The decree will give the military authorities absolute power to take over all metal works, iron and steel plants, mines, coke ovens and virtually all other private industries in the Ruhr.

In the event of the Germans refusing to operate the plants after the requisition, the decree provides jail sentences up to 15 years, and in addition levies fines for all directors of the companies or others responsible for the resistance.

In cases of sabotage to hinder the work at any of the plants after requisition, those responsible will be tried before court martial and upon conviction will be subject to the death penalty.

The decree will be most sweeping, giving the military authorities, in consultation with the French civil commission, the right to exploit the industries themselves or to lease the plants to concessionaries. It is deemed more to the interests of the occupation authorities in their plan to obtain reparations.

Declines Post On Proposed Wheat Board

General Manager of Grain Growers Will Not Act

Winnipeg.—J. R. Murray, General Manager of the United Grain Growers Limited, announced that two weeks ago he had declined the offer of the chairmanship of the proposed wheat board; that the offer had not been renewed, but that he was of the same mind should he be approached again. Premier Greenfield of Alberta, on behalf of himself and Premier Durney of Saskatchewan, made the offer, said Mr. Murray, and the executive of his company was prepared to grant him a year's leave of absence should he desire to accept.

Honoring Canada's Premier

Ottawa.—Rt. Hon. Mackenzie King, Prime Minister, has left for Boston where he will receive the degree of LL.D. from Harvard University.

Baby Cutting Teeth Was Very Sick With Diarrhoea

When the baby starts to cut its teeth, especially during the hot weather, then is the time that the poor mother is under the stress and strain of great anxiety.

There is no remedy so safe and effective for the teething complaints of infants, as is Dr. Fowler's Extract of Wild Strawberry, no remedy that has had its foundation of so many Canadian mothers during the past 28 years it has been on the market.

Mrs. C. W. Myers, Clearville, Pa., writes: "My baby girl was very sick with diarrhoea when she was cutting her teeth. I tried several different remedies, but nothing did her any good. She was getting worse when my mother sent me out a bottle of Dr. Fowler's Extract of Wild Strawberry. I gave her a few doses and the next day she was much better, and in a couple more days she was as well as ever."

Now, I always keep 'Dr. Fowler's' in the house and recommend it to all those troubled with diarrhoea."

Price a bottle put up only by The T. Milburn Co., Limited, Toronto, Ont.

A GOOD SETTING.—Cleveland Photo Trust

GRAIN BUYERS

Wanted for the coming season at country points where we are not already represented to handle cashed lots. No pay our representatives a straight commission. As all our grain is handled subject to government inspection a weight, special experience to the contrary.

WEDNESDAY, JULY 19th.

The following article, written by
W. R. Mocherwell, Minister of Agri-
culture, is a synopsis of agricul-
tural proceedings enacted during the
past year in parliament and will be
of general interest to our readers.

RESUME OF EVENTS AND LEGIS-
LATIVE ENACTMENTS BY REG-
ULATORY PARLIAMENT DURING THE
PAST YEAR, AS THEY AFFECT
AGRICULTURE

Ottawa, July 9th, 1923.

An effort has been made, by no
altogether disinterested parties, to
belittle the net results of the recent
session of Parliament.

Speaking more particularly with
respect to agriculture, I may say
that I cannot recall any Session of
Parliament since Confederation that
passed more beneficial legislation on
behalf of agriculture than the one
recently prorogued. True, five
months was a long time to spend in
performing the work but that is one
of the prices we must pay for group-
ing in Parliament, all of whom have
to have their say.

A number of Acts have been passed
such as "An Act to amend and
consolidate the Acts respecting Live
Stock" and "An Act to regulate the
sale and inspection of Fruit and
Fruit Containers," which can be
betimes referred to here as contain-
ing very important and up-to-date
legislation in their respective fields.
The same may be said of the amend-
ments to Feeding stuffs Act and
the Dairy Industry Act, the latter of
which provides for the prohibition
of the manufacture and importation
of filled butter, filled milk and filled
cream—three pernicious products
that were quietly but persistently
establishing a foothold in Canada to
the great detriment of the dairy
industry.

In addition to this important leg-
islation affecting one of our chief
corner stones of Canadian agricul-
ture—dairying—was the fight to a
finish during the last Session on the
question of whether the prohibition
of the manufacture and importation
of Oleo, would be again reverted to
as it existed for thirty years prior
to 1917. By a non-party vote of
fifty-four to one hundred and twenty-
five Oleo, for the time being being
relaxed a rather positive blow that will
take some recovering from. Not-
withstanding, however, the packers
professional lobbyist was an anxious
inquirer around the corridors the
week following the vote, doubtless
with a view to renewing the battle
at some later date.

The report of Dairy Commissioner
Mr. J. A. Huddell and Mr. W. A.
Wilson on their return from New
Zealand and Australia, coupled with
all the before-mentioned beneficial
legislation on behalf of the dairy
industry, makes the last Session of
Parliament an outstanding one, so far
as the dairy industry of Canada is
concerned.

Although the removal of the British
Embargo on Canadian cattle did not
require legislative action on the part
of the Canadian Parliament, it did
on the part of the Imperial Gov-
ernment, which was an outcome of
a conference between the Imperial
and Canadian Authorities—hence
properly referred to in this article
as one of the advanced steps taken
on behalf of agriculture during the
past year.

The removal of the British Em-
bargo against Canadian cattle has had
a greater direct result in im-
proving the farmers' market than
any other single move that has been
accomplished during the past few
years.

Canada was in the unfortunate
position of being largely shut out
of the only two advanced markets
for her live cattle—the American
market and the British Embargo ac-
complishing this end.

M. WEBER

Here and There

Shipments over the T. and N. O.
Railway during the month of May
amounted to \$23.15 tons of silver
ore.

The movements of the mackerel
schools will, when observed, be
broadcasted from radio apparatus
erected for the purpose by the Canadian
Marine Department.

Mrs. Dan Olio, of Stratford, Ont.,
set 33 eggs and hatched 34 ducklings
from them. One egg was apparently
of the double yolk variety and both
yolks were hatched.

A new direct passage service be-
tween Canada and northern Ireland
has been inaugurated by the Canadian
Pacific Steamships, Ltd. Three
steamers have been assigned to the
route.

James Edwards, of Port Robinson,
declares he has a chicken out of this
year's hatch which out-weighs most
chicken frisks. This one has two
legs, four wings, two heads, two
necks but only one head. It has
been preserved in alcohol.

One hundred and fifty families
are to be brought into British
Columbia and settled under private
enterprise in the valleys east and
south-east of Fort George. W. J.
Leithwaite announced, following his
return from England recently.

A Swedish scientist claims to
have perfected a process for the
manufacture of "artificial wood"
from 50 per cent sawdust and the
balance chalk and chemicals. The
product is as hard as oak, and can
be planed, sawed, bored, nailed,
painted, stained or polished. It will
not deteriorate in water.

A start on the actual work of
electrifying sections of the Cana-
dian Pacific Railway's main line
through the Rockies may be made
next year. D. C. Coleman, vice-
president of western lines, says that
traffic demands and financial con-
ditions would determine when a
start would be made.

The decision of the Government of
the province of Quebec to grant a
bonus of \$1 per acre for land clear-
ed will result in an approximate
outlay of \$250,000. Clearance in
the past few years has amounted to
approximately 40,000 annually, but
the total this year is expected to be
60,000 or more.

Speaking to the Canadian Club in
London, Eng., recently, E. W. Beatty,
President of the Canadian Pacific
Railway, contrasted the "irritating
noise-like din" of Canada's
population policy with Australia's
progressiveness. "We Canadians
would be wise to keep our gates
open for brains as well as brawn,"
he said.

One hundred and fifty delegates
of the Canadian Weekly Newspaper
Association will visit Canada this
Autumn next summer, and hold their
annual convention in London, accord-
ing to decisions made at the first
meeting of the convention here. The
party will leave about the first of
June, and will attend the British
Empire Exhibition. The tour will
last about six weeks.

Up to the end of 1922 dividends
paid by the gold and silver mines
of northern Ontario amounted to
over \$125,135,000. Cobalt camp was
discovered late in 1903 and hardly
began producing until 1905. Divi-
dends paid out of Cobalt mines
amount to \$33,802,820, which repre-
sents practically 50 per cent of the
gross value of production. Porcu-
pine mines have paid \$28,472,988.

George F. Buchanan, of Detroit,
head of the "On to Alaska" with
Buchanan movement, will have 62
boys and 24 adults or members of
the boys' families when he per-
sonally conducts his party from Van-
couver July 15 via Canadian Pa-
cific "Princess" steamer. Buchanan
thinks, with President Harding, that
a trip to Alaska is a liberal educa-
tion to any boy who takes it. He
puts up one-third of the expense, the
boy earns one-third and the British
parents put up the remaining third.

"Face Disfigured
From Eczema"

Writes the Nurse who finally tried D. D. D.
"The doctor had said my husband was cured.
His nose and lips had become disfigured. Since
the use of D. D. D. his eczema has been cured.
His nose and lips have assumed their natural
appearance."

Can be sent you from your own city.
Write for D. D. D. today. Many suffer eczema
for years and lips had become disfigured. Since
the use of D. D. D. their eczema has been cured.
Their nose and lips have assumed their natural
appearance. Write for D. D. D. today.

J. W. Phillips, Auc.

Continued from page 4.

An agitation has been carried on both in Great Britain and Canada for a number of years for the removal of the embargo, and a great many people on both sides of the water have given valuable assistance in this effort, and not a few of them claim that the removal of the Embargo is entirely due to their efforts. But to say that a great many people helped in bringing this about, is much nearer the truth of the matter. For the last two or three years while it was generally expected that the Embargo would ultimately be removed, it was of vital interest to the business of raising cattle in Canada, that it should be removed quickly, and the delay was not only disappointing, but it was ruinous to the cattle business. The present Canadian Government not only acted promptly, but effectively, in this matter, and when the Ministers of the Government and the officials of the Department of Agriculture entered into a conference with the members of the British Government and officials of the British Ministry of Agriculture, they had a very difficult task on their hands. They accomplished something, however, of real importance for the Canadian farmer when they came to a satisfactory settlement of the case, which on a matter of fact, was only concluded the morning after the Lloyd George Government had resigned.

A new Government took office in Britain, and then for a time it looked like another year's delay. A special Session of the new Parliament was called in November to pass the Irish Bill. The Canadian Govern-

ment pressed to have the legislation removing the Embargo enacted at this special Session, but the new Government urged that it had just taken office, that this Session was for a special purpose, and that the Embargo legislation should remain in abeyance until the regular Session after the first of the year. It was only after repeated and persistent urging on the part of the Canadian Government that this question which had been of such long standing was finally solved by the British Government passing an Act removing the Embargo, which came into effect April 1st of this year.

There is not a livestock man in Canada but recognizes clearly the tremendous advantage it would have been to have had this market both full, and what a calamity it would have been were it not available this year.

Mention might also be made of the granting of a certain bounty on wine and cordage made from hemp, for the purpose of establishing a hemp industry in Western Canada—a movement well worthy of a moment's consideration.

Canada last year became famous by having arrived at the stage of being the largest exporter of wine in the world. In the face of this it does seem a mistake to longer continue to depend upon foreign countries for the wine with which to fill the nine-tenths of this crop. Hemp is a product that can be grown successfully, almost luxuriantly, in many

parts of the West and East, with or without irrigation. It grows freely in this country, and should supply unlimited quantities of raw material for the successful establishment of a hemp industry, the future production of which for both home consumption and export no man can estimate. As important as this should be to every Western man, strange to say, only three Western Members supported it.

Following the reduction of freight rates by the restoration of the Crow's Nest Pass Agreement, important legislation has been passed designed to restrict and regulate lake rates, which covered to such an alarming proportion last Fall.

The second and work of the newly-appointed Royal Grain Inquiry Commission, presided over by Mr. Justice Ferguson, is another indication of the desire of the present Government to serve agriculture faithfully and well.

The increase in the Estimates of over half a million dollars for the eradication of foot-and-mouth disease, five thousand for further experiments in the eradication of

infectious and selected persons, ally by Mr. Archibald, director of Experimental Farms. These animals are intended for distribution among the various Experimental Farms, from which farmers may replenish their breeding stock to advantage as desired.

A question of more than usual significance to Western agriculture was the three-year Canadian National Railway Construction program, passed by the House of Commons and approved of by the country generally, more particularly by the West. Imagining with what consternation it was learned that the irresponsible Senate stepped in and thwarted the will of the people by giving this rail, way program the six months' hold. As if to add insult to injury, some Western Senators have the audacity to say as per Senator Johnston that the Government so elected this legislation that it would count the dissent of the Senate. How false this statement is, nobody knows better than the ones who make it.

TOWN OF DIDSBURY

Dogs License By Law No. 105.
Every owner or harbinger of a dog is required to take out a dog license, on or before the 1st day of July, 1923. The Council has instructed the prosecution of all those who have not complied with the By-Law by July 21st, 1923.

W. A. AUSTIN,
Secretary-Treasurer.

Midsummer Sale of Ladies' Coats & Dresses Prices away down

TEA—We have just received a special blend of tea, if you are a tea crank come in and we will give you some to try it out.

YOURS FOR GOOD VALUE

A. G. STUDER

YOU GET THE AMOUNT OF THAT CHEQUE

We were made arrangements with the E. H. Heath Co. Limited who publish the CANADIAN POWER FARMER whereby we are able to offer this farm magazine together with our own weekly at the one price for both papers.

The CANADIAN POWER FARMER is Western Canada's biggest farm monthly. It is now in its twentieth year which means that it is thoroughly established throughout the West. It deals with the mechanical side of the farm. Every issue is full of helpful hints and experience on the operation of all kinds of farm machinery from a washing machine to a tractor. Its editorial staff consists of men thoroughly familiar with every branch of farming both from the practical and theoretical standpoint. Every month the magazine publishes experiences from its readers. Many of these are short but findings that are real money to farmers.

This offer may be withdrawn at any time. Without don't let your intention to get the weekly, then why not take advantage now. Your subscription to this weekly together with a year's subscription to the CANADIAN POWER FARMER for the same price as this weekly alone. This is how you get the \$1.50.

Mail your cheque or drop into our office the first time you are in town.

GOOD MONEY IN GOOD FARMING

"Let's Get to Work and Pay Off the Mortgage"

NINE years ago Canada's national debt was about one-third of a billion. It is more than two and one-half billions today.

Our debts have greatly increased—our revenues must also go up. The farmer has to bear his share of this increased burden. That means he must increase his revenue.

Complaint has been heard that farmers under present conditions in Canada cannot make farming pay. And yet many thousands of Canadian farmers do make it pay.

How Is It Done?

Patient and industrious "cattle men" will do wonders, but something more is needed. Topical "patent industry" is needed with "dull persistence" in properly thought out methods.

Farmers today more than ever, must plan ahead, as well as "plod along." Indeed they have no option, if they wish to succeed.

Co-ordination of head and hand will mean real success. Farming in Canada has paid and pays now on many farms. It can be made to pay on almost every farm. Canadian agriculture has passed through low profit-making days successfully in the past and can do so again.

With the increased cost of production, the higher standards of living now prevailing cannot be maintained by poor farm management. "Shoddy" methods, scrub land, poor quality hogs or non-productive hens.

That even under present conditions profits may be made is testified by some shrewd, observant and non-paying farmers, who believe more in the policy of "sell your stock and buy as you go" rather than "speculate with excessive business and the often consequent disaster."

The results on our Experimental Farms also bear testimony to the value of thorough, skillful work.

The Farmer Must Manufacture

But crops alone are not enough. The farmer must change his crops into less bulky and more highly-priced products—milk, pork, beef, mutton, poultry, etc.

With fair yielding crops yielding about good profits in Canada. The average cow has increased her yield in the last ten years. A cow can quite readily go up another 25% and more, and there's where the profit lies. Better feeding, better selection and better breeding will do the job—feed, teach, breed.

To do better feeding means better pastures and more generous supplies of palatable roughage. Short rotations including clover and ensilage crops (corn, sunflower, pea and oat, etc.) will provide feed in abundance for both summer and winter. The experiments and investigations which the Dominion Department of Agriculture have carried on prove that farming economically and systematically under modern will pay profits. The records and particulars of such work in every province are available to the Canadian farmer.

Are you growing grain, or producing stock, or both? Do you have a good plan? Give us information that will help you. We will send you a list of our publications free. Are you interested in bettering your farm? Are you interested in bettering your life? We have some that will help you.

We have published and have for distribution the different reports, bulletins and circulars dealing with the various branches of agriculture.

We will have something more to say later. Meantime write the Department of Agriculture, Ottawa, about your problems.

Crop Returns Should be Increased

On the Central Experimental Farm at Ottawa, some crop costs and crop profits in 1922 as contrasted with all-Canada average crop costs and crop profits are given below. The all-Canada figures are in brackets:

	Cost per acre	Produce per acre
Hay	\$21.13 (13.59)	\$14.24 (9.90)
Corn for		
Forage	\$47.50 (\$13.75)	\$10.18 (\$2.86)
Grain	\$26.47 (\$10.75)	\$2.22 (\$1.10)

Similar results can be shown from the Dominion Experimental Farm in every province.

Experimental Farm crops are sometimes claimed to be produced at too great cost. Thousands of experiments, however, show that increased cropping costs nearly always result in increased crop yields. It is true on the Experimental Farm—and on any and every farm.

Have Faith in Canada.

Authorized for publication by the
Dominion Department of Agriculture
W. R. MATHIAS, M.L.A., Minister.
Dr. L. P. GRUBBARD, Deputy Minister.

Cuticura Quickly Relieves Irritated Skins

Bathe with Cuticura Soap and hot water to free the pores of impurities, dry lightly, and apply Cuticura Ointment to soothe and heal. Cuticura is ideal for powdering and perfuming.

Sale 25c. Cuticura Soap and Ointment, 25c. Sold throughout the Dominion. Canadian Drug House, Limited, 248 St. Paul St., W., Montreal.

"Cuticura Soap shines without soap."

WORLD HAPPENINGS BRIEFLY TOLD

In May, 2,079 entered Canada from the United States, compared with only 612 in January of this year.

Mrs. Emma Brown, of Hamilton, who claims to be the oldest woman in Canada, has celebrated her 105th birthday.

The University of Cracow, Poland, has conferred upon the Earl of Balfour the degree of doctor of philosophy.

The population of Greater Vancouver is 226,521 persons, according to the annual publication of a Vancouver directory company. This is an increase of 12,777 in the year.

The British silk manufacturing firm of Courtauds has decided to establish a large plant in the province of Quebec shortly, near Quebec City, on the manufacture of artificial silk yarn.

Arrangements have been made for transatlantic excursions from the east and from British Columbia en route to the same lands as last year, according to J. W. Ward, Secretary of the Canadian Council of Agriculture.

One of the commonest complaints of infants is worms, and the most effective application for them is Mother's Gray's Worm Exterminator.

An honest man may have a clear conscience, but he's apt to get none.

Minard's Liniment relieves Burns, etc.

The height limit of buildings in London is 80 feet.

Corn Raising in West

Corn can be profitably grown for feed for cattle.

Corn raising will be fairly general on the prairies of the Canadian West this year, for the first time in the agricultural history of the provinces of Alberta, Saskatchewan, Manitoba and British Columbia, with more than 400 farmers engaged in raising what was formerly regarded as a product of more humid regions. W. D. Troen of Calgary and Gleichen, one of the leading farmers of the province, and president of the Alberta Corn Growers' Association, is distributing two carloads of corn to farmers from as far south as Colesburg, Alberta, to the Peace River country, and from as far west as Victoria, B.C., to Manitoba in the east. About 27,000 acres will be planted this year, it is expected.

Although the plan is being taken by many farmers as more or less of an experiment, it has been demonstrated that corn can be profitably raised for the feeding of cattle in Alberta.

Lame Backs Mended—In One Night

THROBBING PAINS AT BASE OF SPINE EASILY OVERCOME

Weak Kidneys Cause the Trouble

A most wonderful kidney medicine is Dr. Hamilton's Pills. They contain the juices of certain herbs which soothe and stimulate the kidneys. It's a pleasure to use Dr. Hamilton's Pills. They relieve after the first dose, give you a new feeling entirely, remove that dull, throbbing backache, and make your kidneys feel like new. They point to thoroughly cleanse and regulate your system, use Dr. Hamilton's Pills. 25c at all dealers.

Stamp Agency At Ottawa

Dominion Postal Authorities Will Supply Collectors Direct

Official recognition of the hobby of stamp collecting in Canada has been given by the Dominion Postal Authorities, who have started a stamp agency at Ottawa, the purpose of which will be to supply collectors direct with special, colored or other copies of collectors' specimens which they may require. In this action, Canada becomes the second country in the world to recognize this particular hobby, its agency being similar to the only other philatelic agency in the world, namely, that controlled by the Government of the United States.

For Burns and Scalds.—Dr. Thomas' Electric Oil will take the fire out of a burn or scald after it should be at hand in every kitchen so that it may be available at any time. There is no preparation required. Just apply the oil to the burn or scald and the pain will abate and in a short time cease altogether.

Immigration Figures

Statistics Show That Greater Number of People Are Coming to Canada

Figures for the month of April give further indication of the resumption of immigration to Canada. Total entries for the month numbered 9,569, an increase of 41 per cent, over April, 1922. Of the month's newcomers 6,671 were from the British Isles, 2,110 from the United States and 2,699 from other countries. Since the beginning of the year 22,110 immigrants have entered Canada, the months showing increase over 1922 of 5, 15, 22 and 41 per cent, respectively.

A man seldom has as big a bank balance as he wants acquaintance to believe he has.

For Frost Bites and Chills.—Chills come from undue exposure to slash and cold and frost-bite from icy winds of winter. In the treatment of either an excellent preparation is Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is prompt and its application is extremely simple.

Homesteads in Edmonton Area

Since the commencement of May, over 55,000 acres of homestead lands have been filed on at the Edmonton Land Office. The total number of persons filing on their lands numbered 365. Figures for the year 1922 show that 1,500 homesteads were filed on in the Edmonton registration area, giving a total of 251,400 acres in all.

Toronto Receives Gift From Dominion Park

Buffalo From Wainwright and Mountain Sheep From Banff

Two splendid donations have been made to Toronto by the Dominion Parks Branch of the Department of the Interior from the Banff and Wainwright Parks.

Banff has given three big lions, or mountain sheep, three mountain goats and one mule deer. Wainwright's donation is a five-year-old buffalo bull.

Upon being put in the King Park, conditions, a cordial reception was noticeably given the mule deer by the other occupants. The mountain sheep were bashful, and the keepers were startled when one of the western contributions nimbly leaped over the seven-foot fence of the enclosure.

GIRLS AND WOMEN HELD BY ANAEMIA

Rich, Red Blood Needed to Restore Their Health

There are thousands of growing girls and women held in the deadly clutches of anaemia. Slowly but surely a deadly pall settles on their cheeks, their eyes grow dull, their step languid, their appetite flicks. Daily they are losing their vitality and brightness. Pains in the side, head aches and backaches follow, and it seems to be scarcely worth living. What is needed in cases of this kind is new, rich, red blood which will bring back to weak, ailing girls and women the charm and brightness of perfect health. To obtain this new, rich blood use Dr. Williams' Pink Pills. Their action is directly upon the blood; they supply the elements necessary to make it rich and red, and in this way they bring back the glow of health to the cheeks; brightness to the eyes, and a lightness and energy to the step. Among those who have found benefit through the use of Dr. Williams' Pink Pills is Miss Emma J. Johnston, R.R. No. 1, Clinton, Ont., who says:—"In the spring of 1921 I felt weak and very much run down. It was with difficulty I forced myself to work at all. I had headaches, was very pale, and felt constantly tired. In only one week I ran among men. The testimony of a lady who told of the benefit she had from using Dr. Williams' Pink Pills, and I decided to give them a trial. Very soon I felt like a new person. The tired, worn-out feeling had vanished and I could go about my work from morning until night without any difficulty. I certainly cannot speak too highly of Dr. Williams' Pink Pills and when I meet anyone weak and run-down I strongly advise them to give these pills a trial." You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medical Co., Brockville, Ont.

Comparison

Nellie—Mother, I'm afraid you'd be as pretty as a nurse.

Mother—Why do you say that, dear?

Nellie—Because we've been talking for a long time and one policeman has smiled at you yet.—Philadelphia Bulletin.

Demand For Portland Cement

Export of Portland cement from British Columbia ceases only in the increase to South America and Mexico, according to reports from those countries. This is due to increased construction and building.

CATARRR

Catarrr is a local disease greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a tonic, taken generally, and acts through the blood upon the secretory glands of the CATARRH MEDICINE assists Nature in removing catarrr conditions.

Little Winkler Wins Fortune

A little sweepstakes thief, combined with a lucky huck, has played a fortune of \$32,000 in the lap of a York, sister woman milkworker, Mrs. Nellie Ford by name, who drew Papyrus in the Oley Club's \$2,500 sweepstakes, in which more than 200,000 players had taken a chance. Mrs. Ford is described as a hard working woman, who has spent most of her life working in a mill in order to help to support her large family. She was offered \$2,000 for her chance, but refused, as she had a dream that fortune awaited her.

Minard's Liniment for Diarrhoea.

Appointed Director Of Union Bank

R. F. Heller, who has been elected a director of the Union Bank of Canada, one of Western Canada's nationalizing banks, as a director of many important corporations.

At Indianapolis he holds Mr. Heller's office as a Vice-President of all of the following corporations: Great West Life Assurance Company; Canadian Fire Insurance Company; Union Bank of Canada; Northern Trust Company; Southern Bank of Canada; and the Canadian National Bank.

Average depth of the Indian Ocean is 12,893 feet and its greatest depth is 22,968 feet.

Killed By Blood Poison

Fred an old razor for paring his nails. He had been using it for some time, but one day he cut his thumb. The blood poisoning set in and he died.

New Freight Rates On Butter

Special Rate on Tons Lots From Rural Points

New freight rates on small shipments of butter from rural points on the prairies to Winnipeg and other storage points, were put into effect by the railways on May 10. The new rate, which approximates a reduction of one-half of the rate paid before May 10, will apply to shipments of not less than 2,000 pounds provided it is reshipped from the storage points within six months.

Real Pleasure in Life

The truest pleasure comes from simple things. The art of living is mainly the art of enjoyment. It is no use being a millionaire and able to own palaces if one has lost all pleasure except that of adding to one's millions.—London Herald.

After 10 Years of Asthma Dr. J. D. Kellogg's Asthma Remedy proved the only relief for one grateful user, and he is but one of 1,000,000 men. Little wonder that it has now become the one recommended remedy on the market. It has cured the cause by its never failing effectiveness. It is curing it today, as it has done for years. It is the greatest asthma specific within the reach of suffering humanity.

GRENIER GAINS 18 LBS. ON TANLAC

Says Famous Medicine Ended Long Standing Dyspepsia and Restored Perfect Health

"The Tanlac treatment not only ended my stomach troubles, but it built me up eighteen pounds, and I feel better than in my life," is the positive statement of Armand Grenier, 250 Marquette Street, Montreal.

"Dyspepsia had me in a bad shape. I scarcely dared to eat, knew the misery I would have to suffer. My nerves were shattered. I would be awake sometimes all night, and once I woke up from a dose nothing like I was about. As a consequence, I thought my end was near. Then for months I was nighty, even about my eating, but I didn't seem to get any better until I took a friend's advice and started on Tanlac. After a few days I was better, I had a little appetite, perfect digestion, and I can sleep like a top every night. Tanlac gets my best work every time."

Tanlac for sale by all good druggists. Avoid substitutes. There are 27 million bottles sold.

Tanlac Vegetable Pills are nature's own remedy for constipation. Use everywhere.

ECZEMA

You are not alone in suffering from this skin disease. It is a common ailment, and it can be cured. The cure is simple and it is free. BURNSIDE

Mr. and Mrs. Ed. Barnes, Mr. and Mrs. Perry Barnes and son Meryl spent Sunday at Mr. Tom Finlay's.

We are sorry to hear that Johnny Hunter is very ill with typhoid in the Didsbury Hospital.

There was a good crowd out to the U. F. A. meeting in Jutland school on Saturday evening. Mr. Claypool, M. L. A., gave a very interesting account of the years work done by the Alberta Legislature. Mr. Claypool is becoming quite an orator and we are always glad to listen to him.

Miss Claribel Miller is spending a few days with Mrs. Jack Greer.

Quite a number from this vicinity attended the Calgary Stampede.

Mr. Wylie will hold services in Burnside school next Sunday, July 22nd.

RUGBY C. U. C.

Many of the members of the C. U. C. visited Calgary last week and took in the Stampede, all reporting a very enjoyable time.

A good game of tennis was played by some of the young folks on Saturday afternoon and in the evening there were quite a few more members on the grounds, so Misses Mary Hughes and Lorraine Moon chose up sides and a very exciting game of basketball followed the result being 6 to 3 favour of Lorraine's side.

The next meeting will be held on July 21st at 8 p. m. Everybody come and have a good time.

I hate to be a Kicker,
I always long for peace,
But the wheel that does the squeaking
Is the one that gets the grease.

Didsbury Alta., R. R. 1

The Editor,
Dear Sir:—If money is spent on one thing it cannot be spent on another. Any fool knows that.

The bulk of what should go into the Farmer's pocket, the product of his labor, goes into the pockets of the distributors, that is why he is unable to pay his debts or buy the necessities. He has not a feather left to fly with.

The present system of selling the Farmer's crop places the bulk of the product of his years work in the hands of the distributors, i. e., the middle men between the producers (the farmers) and the final consumers, the public. Many of us have seen this for years past, the majority of us farmers are waking up to the truth of the above at this the eleventh hour. The above is one of the chief causes of the present fact that the farming community are laboring under such a sea of Debt today, in fact are almost submerged. At the same time the Mortgage and Land Companies are unable to collect what is due them, neither principal nor interest. They too are beginning to recognize the truth of what I have set forth above. In the fact that we all in Western Canada are finding out the truth lies the only hope for betterment of things for all.

A new system of handling the distribution of the products of the farm is the only hope for the financial salvation of Western Canada as a whole. For if the Farmer has nothing the rest of the community get nothing. That is an indisputable fact.

Continually Co-operation which Arrow Supply has applied with outstanding success to the selling of so many different products all over the U. S. A. is that system and he says it has never been known to fail if started up right. I'll help.

H. Willoughby Greenhill,
R. R. 1 Didsbury Alta.

MILKINERY SALE

To continue at Mrs. Peterson's All trimmed and ready to wear hats to be cleared off at half price.

Those having accounts with Mrs. Peterson will please call and settle without further notice.

Mrs. Peterson.

Preserving Time

This is time for small fruit preserving. Fruit travelers tell us that Raspberries and Cherries will be about the lowest price about the 20th of this month. Strawberries are about over but can still be obtained.

Owing to the small fruits being so perishable we cannot carry much on hand, but we will be pleased to order any variety for you.

Please note that we have sealers in all sizes: pints, quarts, and half gallons in the Perfect seal. New Gem and Kerr makes. Heavy rubber rings at 10 cents per dozen are cheap and will keep your fruit in good shape.

FLOUR & FEED

We are expecting a mixed car of Royal Household flour, bran and shorts towards the end of the week. Feeds seem to be scarce, phone us your orders and we will reserve your quantities.

LIQUOR PLEBISCITE

Should question "A" receive a majority of the ballots cast by the people of Alberta on November 5 1923, the Alberta Government promises a stricter enforcement of the present Liquor Act.

We are assured by the Attorney-General, the Honorable Mr. Brownlee, that his Department is now making its utmost endeavor to enforce the present Act. That the Liquor Enforcement Division of the Alberta Provincial Police is efficient; and is receiving all reasonable assistance from the city, town and village police. If that is so, there is but one class of law enforcement officials that has not yet been developed to its possibilities, and that is the army of stool pigeons. This class of law enforcement is decidedly un-British, and has, and will prove highly expensive, with the result that it will bring all law and order into contempt. Conditions today in Alberta would indicate that we are perilously near that condition now.
